Unity (with flasher)

Yankee
 Jr.
 Kay
 Turnmaster (passenger car only)
 #660

NOTE: Swinging stop lights may be used, but do not take the place of a hand signal.

NOTE: Some of these devices do not include a stop signal, and when signal devices are required on a vehicle, an adequate stop signal must be used in addition to the turning signal.

SIGNAL DEVICES

Turn-Signal For Passenger Car Only (continued)

Tung-Sol "Winx" bulbs are approved for use in directional signals only. No Flashing stop signals are approved.

Turn Signal Lamps

SAE Identification Code for Turn Signal Lamps: Manufacturer's name/trademark and SAE-D, SAE-I, or A1 or SAE-II plus last two digits of year.

NOTE: The letters in caps following trademark indicate multiple functions. Example: I/II/AI/D-S-R-W-T-P indicates Class A or Class B Turn Signal, stop, backup, warning-signal, tail, parking lamp.*

Auxiliary Switches

(Blanket Approval issued 1-30-63)

The Superintendent of State Police has issued a blanket approval on this device which reads:

For simultaneous Flashing of All Four Turn Signal Units

In accordance with the provisions of Sections 46.2-1038, 46.2-1039 and 46.2-1002 of the Code of Virginia, the Department of State Police hereby approves for sale and use within the Commonwealth of Virginia.

Each auxiliary switch designed to provide simultaneous flashing of all

SIGNAL DEVICES

Turn Signal Pilot Indicator Lamps (continued)

Virginia, the Superintendent of State Police hereby approves for sale and use within the Commonwealth of Virginia:

All exterior pilot indicator lamps mounted on the outside of a motor vehicle and visible to the driver, so long as they emit an amber light and have a minimum area of 0.1 square inch and if indicating turn signals that they flash at the same frequency as the turn signal. They must be visible to drivers of all heights when seated in a normal position in the driver's seat. Exterior pilot light indicators may be supplemented by an audible signal.
